

1974 Triumph Stag owned by Mr Ray Quibell of Fort Augustus

Ray has owned this car since 1976 and initially used it primarily for business. Since he's had it, he's waxoiled the box sections every two years which has undoubtedly preserved the bodywork.

In 1990, Ray stripped the car to a bare shell and resprayed it as well as rebuilding the engine, suspension and brake components.

About 10 years ago, he converted the car to a 4-speed ZF automatic gearbox along with a new tubular exhaust manifold, giving the performance and feel of a modern sports-car.
