

1975 Triumph Stag owned by Mr Ian Beaton of Fortrose.

This vehicle was first registered on the 18th November 1975 in Hartford shire. I acquired the vehicle on the 3rd June 2008 and picked it up in Stokesley North Yorkshire, accompanied by John Mackenzie from Fortrose, who very kindly drove me down.

The main reason for sale by the previous owner was due to the well known overheating problems which he not only failed to cure, but also failed to advise me off.

Once discovered I immediately made an appointment with a well known "Stag Doctor" Mr Ray Queibel of Fort Augustus who breathed new life into it by means of a "heart transplant" (engine overhaul). The vehicle has now been transformed and I am happy to say that both myself and my wife have enjoyed many happy miles of motoring, thanks to the technical know how and practical experience of the "Stag Doctor"
